

SohoLine

Intro

SohoLine cabinets provide an economical solution for wall-mounted networking application. This series is a range of wall-mounted enclosures for use in offices, factories or any places where a reduced amount of space is required.

GENERAL CHARACTERISTICS

- 6U, 7U, 9U, 12U height options
- Depth is 400 mm. for 7U, 9U, 12U and 300 mm. for 6U
- Width is 520 mm. for 19" and 292 mm. for 10".
- 30 kg. load carrying capacity (for wall mounted installation)
- Protection level: IP20
- Extensive range of accessories
- Color: RAL 9005 black and RAL 7035 light grey
- U marking device installation uprights
- Nut and washer connection for earthing
- Front door can be opened up to 220°
- Special structure allowing the adjustment of 19" device uprights throughout the depth
- Cost-effective flatpack design

Modular, Practical and Compact Design

SohoLine 19" and 10" wall-mounted cabinets offer sleek and user friendly design for fast installations at compact locations.

GENERAL CHARACTERISTICS

- 4 mm thickness of glass, full-length smoked, shatterproof, tempered, secure
- Rear panel can be mechanically locked with 4 screws from the inside
- Front door is lockable and removable.
- Rubber edge sliding mechanism for top or bottom
- Plastic and sliding covers swappable between top and bottom
- Rigid frame construction in steel sheet, rapidly dismantled with 3 screws per corner
- Top panel is available for fan module system
- Saves up to 70% of Shipment and 50% of labor cost (due to a 5 minute assembly time)
- Quick assembly using 3 screws per edge

SohoLine

TECHNICAL CHARACTERISTICS

Main framework must be with a structure which increases mechanical resistance and offer aesthetic appearance, manufactured with "U" shaped side panels closing on the top and bottom case for framework

stability. Manufactured and tested to provide axial (x, y, z) resistance that meets EN 61587-1 / 5.2.1 and 5.2.2, and external impact resistance that meets EN 61587-1 / 5.3.3.

Bottom and upper case have a structure which increases resistance and strength of cabinet; monoblock bended top and bottom housing cases provide increased stability. Each side panel body is screwed to top and bottom cases with M5x10 screws. Cable access at top case is via a brushed access plate that blocks dust inlet. A plastic cable entry cover plate housed at bottom case can be replaced with the brushed cable entry on top; of cables to enter from bottom.

Rear panel in standard mechanically locked with 4 screws from inside.

Side panels are non-opening screwed style, for maximum stability.

Front door is glass which is tempered, anti-static, secure and smoked glass (4 mm thickness), according to EN 12150-1:2000 standard. It can open 220 degrees, is removable and lockable Vented top panel housing with a dedicated space for ventilation, fan module system allows easy installation of max. 2 fans.

19"(inch) mounting angles for 2 ea. in front are part of the cabinets interior configuration. The cabinet meets EN 61587-1, IEC 60917, IEC 60297 standards, RoHS compliancy, EAC and TSE certified.

Cabinets are manufactured in our factory which has ISO 9001: 2008 Quality Assurance System and our responsibility for environment with ISO 14001:2004 Environmental Management System.

KEY FEATURES

ACCESSORIES

FAN SYSTEM; The setting range is between 0-35 °C with digital, analog or ON/OFF switch with 1 or 2 pieces fan controlled thermostat units. It is suitable for installation inside the cabinet with electric cable and internal wiring. Every fan at 50 Hz max. have a noise level of 38 dB and 53 CFM airflow. It has a CE certificate.

CASTER AND/OR LEVELING FEET; The wheels are movable in every direction and the front wheels have a lockable structure. The load carrying capacity of each wheel and each leveling feet is 250 kg.

FIXED AND SLIDING SHELF; Be able to mount from 4 points (2 in front and 2 in rear).

LIGHTING FIXTURE; 19", 1U, with ON/OFF switch, 220 Vac, automatic door with ON/OFF switch or LED with sensor.

GROUNDING CONTINUITY; Grounding continuity in the cabinet complies with IEC 61010-1 standard. For all doors, these grounding cable connections are made with bolts and nuts.

Grounding continuity between the 19" movable mounting profiles and the main body is provided with the toothed nuts and screws.

The Cabinet complies with EN 61587-1, IEC 60917, IEC 60297 standards, and are RoHS compliant, GOST and TSE certified.

Cabinets are manufactured at our factory which has ISO 9001 Quality Management System and ISO 14001: 2004 Environmental Management System showing our commitment to the environment.

TESTS AND COMPLIED STANDARDS

TESTS AND COMPLIED STANDARDS

- 1) ISO 9001:2015 Quality Management System
- 2) ISO 14001:2015 Environmental Management System
- 3) ISO 27001:2013 Information Security Management System
- 4) ISO 45001:2018 Occupational Health and Safety Management System
- 5) 19" device mounting uprights IEC 297-1
- 6) EN 61587-1 Mechanical structures for electronic equipment.
- 7) All cabinet sizes complies with IEC 297-2.
